WORLD OF RADIO HITLIST UPDATE

Hi Glenn, my latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) Cuba – R Havana Cuba: deleted links to obsolete freq sched pages

2) Indonesia – VOI: Updated link for RRI live stream, added link to RRI schedule, deleted obsolete link to VOI archive

3) New Zealand – RNZ Pac & RNZ Nat: Updated UTC offset notation for DST change

4) Pakistan – R Pakistan: Removed link to long outdated (A-18) freq schedule; added link to Facebook page and a direct link to live stream

The next update is scheduled for late October. Best wishes and 73, Alan Roe

** BRAZIL. 11780, UT Tue Sept 30 at 0150, RNA/RNB S9+10 VG into Bonaire SDR but nothing on 6180, just wrapping up previous show for token English, continuing about a ``climate convention`` origin, annex-2 blox, etc., just a lot of bureaucratic blather. 0152.5 already wrapping up with credits, 0153 English & Portuguese IDs, 0154 same subject in accented Spanish. This is nominally UT Tue-Sat only, not M-F (Glenn Hauser, OK, WOR)

** BRAZIL. 28400 USB, Sept 30 at 2203, PU2OPR calling CQ. QRZ.com: ``PU2OPR Brazil flag Brazil, Jose Jacinto de oliveira, Rua Afonso Martos Filho, 294, Jd. Itamaraty, OURINHOS, SP 19904250, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28417 USB, Sept 26 at 2215, PU2WDX working US stations with 100 watts. QRZ.com: ``PU2WDX Brazil flag Brazil, Celso Dias Dos Santos, R: João Carazzolli N 175, Valinhos/SP - 13273-640, SP, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB & 6754 USB, as of Sept 29, random day and night chex have not heard CHR, Trenton Military for several days. Has anyone? If so please report (Glenn Hauser, OK, WOR)

** COSTA RICA. 28461.5 USB, Sept 29 at 2201, TI2CC calling QRZ in English, quickworking UStations; goodsig but the OSOB, not even beacons. And why is he bothering to split kHz? QRZ.com: ``TI2CC Costa Rica flag Costa Rica, Carlos Paez,
COSTA RICA: BUT SEND QSL VIA: P.O.Box 025331, SJO 169221 MIAMI, FL 33102, USA - VISIT MY YOUTUBE CHANNEL AND SUBSCRIBE:``
https://www.youtube.com/channel/UCFK8xxOByoOeFTQioyxd7CA
There are only four short audiovideos from five years ago (Glenn Hauser, OK, WOR)

** CUBA. 1141, Sept 29 at 0546, carrier hetting 1140 stations, presumed Cuba as usual. I never pull any audio from this, altho some have (Glenn Hauser, OK, WOR)

** CUBA. 15140, Sept 25 at 1904, RHC English, S7/S8 undermodulated, not on 11760 today (Glenn Hauser, OK, WORLD OF RADIO 2314)

** CUBA. 15140, Sept 26 at 1951, RHC English not off the air, S9+20/30 into Georgia SDR with squeal; also into Knoxville SDR S9/+10 with same squeal so a transmission, not reception problem. 11760 not on. Something`s always wrong at RHC. BTW, Chris Campbell hears from his

contact at RHC that they are short-staffed, so producing only one hour of English per day, not two altho some canned announcements still say that (Glenn Hauser, OK, WOR)

** CUBA. 15140, Sept 27 at 1900, RHC English not off the air, but VP direct; not on 11760 (Glenn Hauser, OK, WOR)

** CUBA. 13780, Sept 27 at 2339, RHC with music; 15230 S9+10 of dead air; 11760 off. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 9710 S6/S7 // 11760 S9, Sept 28 at 0636 jazz, obviously RHC, English or Spanish service, whichever on way late over these instead of 6000, 13780, 15140 or 15230, all off (Glenn Hauser, OK, WOR)

** CUBA. 15140 S9 undermodulated with squeal, in Spanish stronger than // 11760; also 13780 carrier, 15230 S9 dead air, Sept 28 at 1514, the RHC situation where something is always wrong (Glenn Hauser, OK, WOR)

** CUBA. 13780, Sept 29 at 2209, RHC in Spanish, S9+20 but undermodulated. 11760 JBA carrier maybe something else and no 15s. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 6000, Sept 30 at 0510, RHC dead air or JBM? into ATS-909 portable. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 13780, Sept 30 at 1454, S7/S8 of JBM RHC Spanish; even weaker JBA on 11760 maybe //. 15230 with S7/9+5 of dead air. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13780, Sept 30 at 2159, RHC in Spanish, S9+10/20 undermodulated; at 2210, 15230 is S9/+10 of deadair and 13780 S9+20 undermod. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 13780 S5/S6 JBA, 11760 S8/S9 undermod Spanish, and 15230 dead air, Oct 1 at 1451-1452, RHC where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, Sat Sept 27 at 1903, LV del Trumpismo not off the air this weekend, but music instead of news on the hour (Glenn Hauser, OK, WOR)

** CUBA [non]. 7335, 7365, 6030, Sept 28 at 0002, LV del Trumpismo now on evening frequencies even on a UT Sunday, no news on hour but starting a show featuring music of Earth, Wind & Fire; OK (Glenn Hauser, OK, WOR) See also U S A

** CHILE. 28465 USB, Sept 27 at 2352, CA2FHD calling CQDX. QRZ.com: ``CA2FHD Chile flag Chile, Freddy Hidalgo cuello, caupolican 2415, Punitaqui, 1900000, Chile`` - his page displays several certificates (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 15245.0, Oct 1 at 1514, CRI in English, S5/S6 with Doppler flutter, but the best signal on band, i.e. Kashgar for WEu this hour only. If you hear a signal around 15245.244, as I measured it May 31, it`s North Korea, long hours for Europe, supposedly also with English this hour, but no sign of it now (Glenn Hauser, OK, WOR)

** ESWATINI. 9585, Wed Oct 1 at 1454, TWR tinkling IS S5/S6, Eswátini ID, 1455 music and language, listed as Malagasy on M-F, French on S/S. Probably long-path across Indian & Pacific Oceans (Glenn Hauser, OK, WOR)

** FRANCE [and non]. 17545, Sept 27 at 1528, JBA carrier direct from Issoudun, but into Azores SDR, VG S9+10/20. For the Mini Transat yacht

race, maritime weather voiced rather than faxed maps! YL in English, heavy French accent so a real person? Surely a robot could speak clear English. Frequent mentions of ``November`` refer to the direxion North, as in Geo coördinates; likewise South = sierra, West = whiskey; and East = echo pronounced eek-oh. I thought this race had been suspended due to hurricane in the way? Anyway, forecasts for next few days.

1543 she starts saying ``finally...``; 1544 ``that`s all for today, take care, talk to you tomorrow, à demain`` - the only French heard; entirely in French earlier in the 1500 hour. 1544 heavy beat music. 1545 open carrier to 1546*. Supposedly also on 7340 from ISS, but no signal into Azores, and at UTwente, only something else, presumably East Turkistan, PBS Xinjiang, Urumqi in Kazakh at 2300-1800!

Alan Pennington posted all about it yesterday to the British DX Club:

``The biennial Mini Transat single-handed yacht race (sponsored by La Boulangère) began on Sunday 21st September with 90 small (6.50m) boats sailing from Les Sables d'Olonne in France, with a destination on the first stage of the race, Santa Cruz de la Palma in the Canary Islands. (The second stage is scheduled to begin from La Palma on 25th October, destination Guadeloupe.)

One feature of the race is participants use paper charts and only have a VHF radio (with around 10 mile coverage). But there is a daily shortwave broadcast in French and English giving them weather conditions.

Two frequencies are registered on HFCC for these daily Mini Transat (MT) weather forecasts at 1500-1600 UTC: 7340 and 17545 kHz (both 250 kilowatts from Issoudun).

17545 kHz was heard yesterday (25th Sept) at 1500 UTC by Adam Amirkhanov in Bucharest on WRTH Facebook:
https://www.facebook.com/share/v/18mRyaXsEg/

However, the first stage of Mini Transat has now been cancelled with boats sheltering in ports on the Portuguese coast because of the impending Category 4 Hurricane Gabriele approaching from the Azores, expected to hit the coast of Portugal on Saturday.``

https://www.minitransat.fr/
https://www.facebook.com/LaMiniTransat
(Glenn Hauser, OK, WOR)

** FRANCE. 17545, Tue Sept 30 at 1511, Issoudun with Mini Trans-At yacht race weather info, S3/S6 into Azores SDR but quite sufficient. YL in French with spoken rather than faxed weather maps. I can`t imagine how contestants could make any sense of this as their boats rock around. They are supposed to copy all this data and draw their own maps? Direxions N/E/W/S are obvious in coordinates, but every time she clarifies the letter with November, EEcho, Whisky, or Sierra. 1514 switches to English, with forecasts at least into Thursday. 1528 closing, ``happy birthday`` to whom? and song. 1528 French and English talking about a Portuguese song, ``à demain``. But songs with heavy beat keep playing for a semihour until abrupt chop at 1557*.

Unclear to me status of race which had been suspended due to hurricane. Anyhow the wx broadcasts continue. Previous few days others reported the broadcasts lasted only a few minutes from 1500. All the info here:
https://www.minitransat.fr/
Evidently after a 9-day delay, restarted Sept 29 from Portugal bound for Canaries (Glenn Hauser, OK, WOR)

** FRANCE. 17545, Oct 1 at 1512, JBA carrier direct; at 1519 into Maryland SDR, S5/S7 marine weather in English for Mini-TransAt (Glenn Hauser, OK, WOR)

** HAWAII [non]. 14300 USB, Sept 29 at 2217, KH6JRC, calling for checkins by anyone/anywhere with/without traffic, to Maritime Mobile Services Net. No replies heard but maybe he was hearing someone. QRZ.com: ``KH6JRC USA flag USA, JAMES D CLAPPER, 3716 CHURN CREEK ROAD APT D, REDDING, CA 96002-2903, USA`` - says he is originally from the windward side of Oahu, and NCS for this and two other nets. I was looking for activity on the Hurricane Watch Net, 14325 USB (Glenn Hauser, OK, WOR)

** INDONESIA. 9690, Sept 26 at 1257, JBA carrier, presumed VOI on new frequency, widely reported last few days as only 400 watts, but with more hours of English than before on 3325/4755. Not Aoki but EiBi already has full schedule including Japanese until 1300, then English. Nothing else listed on 9690 except one hour of China at 15-16 (Glenn Hauser, OK, WOR)

** IRAN [non]. 12025, Sept 30 at 2213, no signal of R. Farda via Woofferton. For the record: other reports of it being canceled earlier in Sept (Glenn Hauser, OK, WOR)

** MADAGASCAR. 11610, Sept 26 at 2221, NO signal from R. Feda, the Arabic version of MWV toward N Africa; it`s so common that I don`t bother to log it, but its *absence* is notable, in fact more so than its presence, altho some DX editors can`t handle a ``nothing`` log in a by-frequency listing (Glenn Hauser, OK, WOR)

** MADAGASCAR. Re my obs of MWV R. Feda, missing from 11610 at 22 Sept 26: ``Hi, MWV is temporary off-air because of unrest in Madagascar. 73, Dmitry Mezin``

``The unrest in Madagascar is related to power and water cuts. https://www.rfi.fr/en/africa/20250926-deadly-protests-erupt-in-madagascar-over-chronic-blackouts-and-water-cuts

MGLOB was still on the air with BBCWS on 12095 at 0400 UT September 27, and Radio Dabanga on 11640 at 0430. Later in the day BBCWS via MGLOB was on 21565 as usual around 1300. All heard direct here in Houston. Stephen Luce, Houston, Texas`` (via Glenn Hauser, OK, WOR)

** MADAGASCAR. 9765, Sept 30 at 2215, S9+20 poorsig in Portuguese referring to a versículo, so a gospel huxter. Yes, MWV sked this hour, *much* weaker than SimulArabic on 11610 thisaway by coincidence. Was down for a day or two due to disturbances in the country (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6960 USB, Sept 27 at 2357, OSOB is a 9-second loop singing ``testing 1, 2, 3 ---`` and a few words I can`t copy. Sept 28 at 0000 sharp, ID as Wolverine Radio and into song. Many more logs here: https://www.hfunderground.com/board/index.php/topic,150882.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6945 USB, Sept 28 at 0049, S9/+10 of guitarish music. ID here as VFO Radio: https://www.hfunderground.com/board/index.php/topic,150888.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 USB, Sept 28 at 0049, yelling, SFX, 0050 mention Eddie Murphy - or Eddy Murphee? and Dr. Demento show. More logs as unID here:

https://www.hfunderground.com/board/index.php/topic,150887.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6955 AM, Sept 28 at 0051, S9+10 open carrier must have just come on, unID. By 0120 ID as Liquid Radio here: https://www.hfunderground.com/board/index.php/topic,150892.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6924.9 AM, Sept 29 at 2212, pirate music at S9+10/20, which is not enough to overcome the noise level. Nothing reported yet today in HFU. After jumping thru hoops, searching on that offset frequency gets far too broad results to be of any use (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, Sept 30 at 2217, pirate music poor S9+10, Thunder Chicken reported here from 2037 altho not quite this late: https://www.hfunderground.com/board/index.php/topic,151059.0.html (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1490, Sept 25 at 0614 UT, Mexmx briefly dominating pileup until fading. NRC AM Log shows SS in these states: CA, FL, GA, ID, IA, MA, NJ, OK, TX, UT, WA, some of those with two SS. I was about to go with IA or TX due to proximity until I saw OK: that`s KBIX Muskogee U1 1000/1000 SS:MEX ``Las Americas`` - I never hear it on daytime groundwave as 1490 is dominated here by KMFS Guthrie (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1680, Sept 27 at 2157 UT, Virtual DJ Radio, very low-power relay somewhere near the nexus of US81 & US412 in Enid, ID by Michael, and oldies, such as at 2210 ``Knock Three Times``. I have yet to see any other logs of this on air since I first discovered it on 1670 kHz, November 29, 2024, and referenced the source: https://virtualdjradio.com/ (Glenn Hauser, Enid, WOR)

** OKLAHOMA. Don Moore in Illinois reported this to the MARE Tipsheet in September: ``On Wednesday morning I took the mobile DX shack to the Old School Forest Preserve in Libertyville, about a half-hour north of where I'm staying in Skokie. There is a picnic shelter there with no power lines within 250 meters so it is very quiet. I primarily wanted to check for the Oklahoma and Missouri secure net tests, which had been posted to UDXF. The Oklahoma net operates at 0900 a.m. local time and the Missouri one at 0930 a.m. local time. Primary frequency is 5140 with 7477 as the main alternate. Per the anmt, the Missouri net is only on the first and third Wednesdays of the month.``

So on the first Wednesday of October, Oct 1 I am tuned to 5140 USB just before 1400 UT. I do hear a number of checkins, but most JBA. All callsigns start with W plus 3 letters and 3 numbers. Generally given with fonetix, but poor reception and swiftness make them hard to copy accurately. First one has a good signal, WQBY?-something in Beckham County, such as Sayre near the TX panhandle border. Some YL voices, and first names mentioned such as Bill, as they apparently know each other. Fragments I could copy: Pottawatomie, county which is SE of OKC. 3921. WNCH624 Tulsa. WNBE830. Any additional checkins for Oklahoma Operational ----? At 1410, WQYK443, WPFY---, Ernie. Nothing heard after 1415 so I quit at 1417. At 1430 I have a JBA signal, presumably the Missouri net starting. Don has a lot more info about that, link to a 417-page pdf, slightly outdated from 2014y including around page 375: https://core-docs.s3.us-east-1.amazonaws.com/documents/asset/uploaded_file/4319/CBM/3591786/complete_emergency_operations_plan.pdf

APPENDIX 3
AUTHORIZED RACES FREQUENCY LIST DURING WARTIME EMERGENCY SITUATIONS

In the event of an emergency that necessitates the invoking of the President’s War Emergency Powers under the provision of Section 706 of the Communications Act of 1934, as amended, only RACES stations and amateur stations participating in RACES may transmit on the following frequencies:``

All conceivable local, county, state and federal military and non-military agencies seem to be involved. I would sure like to get a current equivalent for OK.

On UDXF, here`s an old log from Jack L. Metcalfe:
``5140.0 WPFY721, Oklahoma Emergency Management Agency EOC at the National Guard Armory, Seminole, OK as net control in a very, very weak weekly roll call. Stations heard, but just above the noise floor: 1401 UTC in USB voice (26/MAR/2014) (JLM)`` That was the 4th Wednesday of the month (Glenn Hauser, Enid, WOR)

** PARAGUAY. 28410 USB, Sept 30 at 2202, ZP9HTL working US stations in English. Only a couple other phonesigs audible on 10m, see BRAZIL. QRZ.com: ``ZP9HTL Paraguay flag Paraguay, Juan José "JJ" Rios Maciel, km9 Acaray, Ciudad del este, Paraguay`` (Glenn Hauser, OK, WOR)

** POLAND [non]. 17790, Sept 29 at 2204, S9+20/30, news in English about Poland, 2206 ID as ``Polish Radio, weekday public affairs magazine``. But OFF at next check 2220. Error at WRMI? 22-23 UT daily is indeed time for PRES on WRN (BTW, link to NAm sked reaches one labeled Africa/Asia/Pacific, but has been identical to NAm for several years now, unlike Europe stream.) WRMI skedgrid for #7 on 17790 says finishing at 2200, and no WRN relays that hour. However System E sked indeed shows WRN at 22-23 daily on 17790, 7570, 5950, 5050 - the others I cannot hear, nor tell what`s on JBA 9955.

15770, meanwhile at 2221 Sept 29, is as usual in Spanish from TAIWAN, S9+30, with a tourism program dated Sunday Sept 28 (Glenn Hauser, OK, WOR)

** POLAND [non]. 17790, Oct 1 at 2159, WRMI VG direct and // 15770 in gospelhuxter. 2200 they split, 15770 into Taiwan in Spanish, and 17790 again with Polish Radio External Service as sked on WRN. WRMI xmtr sked shows 17790 off after 2200, but System E WRN shows that hour on 17790 as well as 5050, 5950 and 7570, all of which are really OFF when checked into Georgia remote at 2223, while the hour-long PRES English still goes past 2233 on 17790, so is this an error or not? Anyhow this is much more listenable than Spain`s weekly English at clashing time due to fading and accent.

2204 news of a new refund/recycling program for containers, bottles of plastic, metal or glass with specifications; French climber of tallest building in Warsaw, Europe? 310 meters, charged for doing it without safety equipment, may get a year in jail - not much climbing there, I suppose. 2205 ID and News from Poland to continue another 15 minutes.

Commenting on my previous PRES 17790 log, Uncle Bill Tilford says, ``Polish Radio, which I mention in my next Shortwave Program Spotlight {NASWA Journal}, deserves to be triaged in any WRN relays via WRMI. The nuances of Polish relations with Germany, Ukraine, Belarus and NATO generally are as intricate as they are sobering, and the station captures all that better than western media.``

Other PRES times on WRN N American stream, and maybe also on SW via some WRMI: daily 0300-0400, 0700-0800, 1800-1900 (Glenn Hauser, OK, WOR)

** PUERTO RICO. 391 MCW kHz, Oct 1 at 0626 UT, DDP, 2000-watt NDB at San Juan/Dorado, Luis Muñoz Marín Intl airport, the only Caribeacon I ever hear - but not for a long time, last logged March 7; are there any others still active? Enhanced southerly prop, and local noise level low enough (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Sept 30 at 2157, REE S9/+10, VP and noisy direct, rather than usual bigsig, and 15390 JBA, still no 15500 & 15520; propagation disturbed (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Wed Oct 1 at 2159, REE S9+10 direct, weaker than usual, and trace of 15390 only for weekly English from 2200. Still Marilyn Quintana only, ``live at 12 pm``; due to accent and fading, hard to copy clearly unlike Poland via WRMI 17790, q.v. She previews something about 17 weeks, Cervantes, Lebanon correspondent. 2202.6 starting news of week, tRump & Gaza. Maybe I`ll listen to podcast later (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Sept 26 at 2200, 2221, direct and 2230 into UTwente, NO signal from VOT English; nor on accidentalternate 9875, rather weak Korea North skewed minus. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11660.019+, Sun Sept 28 at 1651-1718, S9+20/30 into UTwente, VOT `Letterbox` with Cemre. Remembering Tibor Szilagyi who died over a year ago of Parkinson`s, born 1940, originally from Hungary, escaped to Sweden, very involved in DXing. Was EDXC Sec`y General 2007-2012, and she interviewed him at the 2010 EDXC conference in Ankara. Plays recording of that, lamenting SW stations closing down, etc. I find this about him: https://edxcnews.wordpress.com/2024/07/29/tibor-szilagyi-rip/

Finally at 1701 on to the E- and P-mail: 1) Mr Allan Willie, Carbonear, Newfoundland, sent 103! reception reports of VOT he has ammassed, should be of great interest to engineering. 2) Chakrobarty, New Delhi, about ``failed justice`` report of Israel killing American/Turkish person, genocide. 3) Miss Leila? Bass?, Netherlands, listened to French via UTwente, 14 Hz offset from 17740, QRM, but better than she can get it at home in Hampshire UK. 4) Eric Brummer?, 11540 report. 5) Mr Shangang? Kong, Zhejiang, China, two reports from June, July, heard German instead of Chinese scheduled. 6) Paul Simmonds, Adelaide SA, heard Persian. 1716 end of episode including Japan??, 1718 theme (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, Sun Sept 28 at 2221, VOT not off the air, starting `Letterbox` as I already logged 5.5 hours earlier on 11660, S9+45 into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11785.019-, Sept 29 at 2157, JBA carrier direct from VOT; but at 2243 into UTwente when measured, only S7/S8 and cannot hear any modulation vs the noise level, very disturbed propagation (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004, Sept 30 at 2158, VOT not off the air, but IS VP S9/+10 direct. At 2250 into UTwente when measured, VP noisy S7/S9 with music. 2254 s/off, 2255 IS, off by 2255.5*: rarely so horrible into UTwente, propagation degraded (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Oct 1 at 2158, no signal direct from VOT. Not checked UTwente until 2253, maybe too late, yet locked onto 11785.011 until 2255* tho nothing but noise audible. Erroneous at Emirler? (Glenn Hauser, OK, WOR)

** U S A. Slightly lower local noise level of only S7/S6 allows a few ND beacons to be perceived, Sept 29 at 0627+ UT: 245 FS 100w `Rokky`

Sioux FallS SD; 251 AM 400w `Pande` AMarillo TX; 265 HET 25w HenryEtTa OK; 326 MA 400w `Farly` MidlAnd TX; among others. As per RNA Signals List (Glenn Hauser, OK, WOR)

** U S A. 6501 USB, Sept 29 at 0559, hurricane info, attributed to NWS Miami at 2 am ET, ID as `US Coast Guard Communications Command, out`` to 0600*. Klingenfuß shows 8 USCG stations on 6501 including NMA Miami (Glenn Hauser, OK, WOR)

** U S A. 24933 USB, Sept 26 at 2219, CQ12 from KQ4TDQ, Tampa Bay. Even when 11 and 10 m are hopping, I seldom hear much activity on 12m. QRZ.com: ``KQ4TDQ USA flag USA, Alfred "AL" Mattor, 3562 Ligonier Road, Spring Hill, FL 34608, USA`` Tucker Carlson and Don`t Tread On Me appear on his page (Glenn Hauser, OK, WOR)

** U S A. 28204+ CW, Sept 26 at 2208, VVV AJ4#N/B FM -- beacon. I thought the missing letter was E but WGB list leads to this: ``28204.0 AJ4YN/B - Chesapeake VA USA FM16uo - #0 (17 Apr 2025) Note: VVV ID + grid 10" off - Pwr 7w (Ex 28285.5)``. QRZ.com: ``AJ4YN USA flag USA, Ray B Kauffman, 3140 Bunch Walnut Rd, Chesapeake, VA 23322, USA == My 10M 7W beacon transmitter on 28204.2 KHz. Antenna is 1/4 wave whip on a groundplane about 12 feet above ground. Please drop me a note if you hear it`` (Glenn Hauser, OK, WOR)

** U S A. 28208+ CW, Sept 26 at 2219, VVV VVV DE WN2A/B, confusingly alternating with a different ID, AK2F/B. But as in WGB list: ``28208.0 WN2A/AK2F - Budd Lake NJ USA FN20ou - #0/1 (14 Apr 2025) Note: VVV × 2 alternating IDs both /B - Tx homebrew antenna vertical A-99 pwr 3w - 320m asl``. QRZ.com: ``WN2A USA flag USA, MICHAEL J MASTERSON, 7 HUDSON RD, BUDD LAKE, NJ 07828-2607, USA -- Co-own 10 meter Beacon with AK2F (28.2082 MHz- FN20ou). Homebrew system in operation "continuously" since March 1997 - see http://www.qsl.net/wn2a/beacon.html This beacon may be off for maintenance or if I op 10 meters. Most times it is on. Also see the QRZ.COM webpage. https://www.qrz.com/db/WN2A/B -- Take a look at reversebeacon.net and type in WN2A/B or AK2F/B to see where it was recently heard`` (Glenn Hauser, OK, WOR)

** U S A. 28218 CW, Sept 26 at 2212, EEEEE DE WA1LAD/B - WGB list: ``28217.5 WA1LAD/B - West Warwick RI USA FN41fq - #0 (31 Mar 2025) Note: de ID only + eee + K`` -- QRZ.com: ``WA1LAD USA flag USA, GILBERT D "Gil" WOODSIDE, III, 285 3rd Ave, Warwick, RI 02888, USA`` (Glenn Hauser, OK, WOR)

** U S A. 28231+ CW, Sept 26 at 2218, VVV DE N3TVV/B = full message repeating without pause. WGB list: ``28231.3 N3TVV/B - Jim Thorpe PA USA FN20dv - #0/1 (17 Apr 2025) Note: VVV de ID + grid`` -- QRZ.com: ``N3TVV USA flag USA, Eric T Bott, 824 Center St, Jim Thorpe, PA 18229-2208, USA. You can also Check out my beacon page @`` https://www.qrz.com/db/N3TVV/B -- many more beacons, no time to log, likely more from NE USA area (Glenn Hauser, OK, WOR)

** U S A. 28250 CW, Oct 1 at 2210, slow beacon, READ BIBLE .-.-- DE KI6MTV/B - I`ve hunted and hunted for that middle symbol in Wikipedia and can`t find it: what`s it? Possibly combo of two letters not noticing a pause, like: RM or AW?

WGB list: ``28250.0 KI6MTV/B - Shingle Springs CA USA CM98mq - #0 (06 Nov 2024) Note: ID only - Slow keying``

QRZ.com: ``KI6MTV USA flag USA, Michael R Hislop, PO BOX 121, SHINGLE SPRINGS, CA 95682, USA --- Hey, if you hear my beacon, (28.250 mhz) send me a message. I would like to hear from you. Don't forget to tell me the location where you heard the beacon. Thanks, Mike`` Shingle

Springs is east of Sacramento on US 50 on the way to Placerville
(Glenn Hauser, OK, WOR)

** U S A. 28260 CW, Sept 27 at 2348, EEEEE VVV VVV VVV DE KC4QLP/B.
WGB list: ``28260.0 KC4QLP/B - Little Falls NY USA FN23ob - #0/1/2
(23 Sep 2025) Note: VVV de + ID + grid + EEEE - Pwr 10w`` - and see
my original log of March 6, 2024. Many more 10m beacons audible now
(Glenn Hauser, OK, WOR)

** U S A [and non]. 13605, 11930, 11860, Oct 1 at 1450 past 1500, NO
signals from R. Martí/LV del Trumpismo - probably due to US government
shutdown. Had been reliably on daily tho still abbreviated schedule.
11930, 9565, 7335, evening frequencies also absent at 2354; altho a
JBA signal on 7335, presumably CNR2 from Baoji site as in Aoki (Glenn
Hauser, OK, WOR) See also CUBA [non]

** U S A [and non]. WORLD OF RADIO 2313 monitoring: ``Richard
Lemke, St. Albert, Alberta, Canada, From the desk of Richard's

** U S A [and non]. WORLD OF RADIO 2314 monitoring: as expected, WTWW still not on air 5085 at 0300 UT Saturday Sept 27, but back next week?

Confirmed Saturday September 27 at 1448 the 1431 on SW Gold Radio, Germany, 6160.001+, S9+5 into UTwente.

Also confirmed Saturday September 27 at 1600 on WRN N America and Europe streams, and also part of WRN relay via WRMI, VG 9395 and much weaker 7730 into Georgia SDR.

Also confirmed Saturday September 27 at 1731 on SW Gold Radio, Germany, 6160.000+, S9+10/15 with RTTYditty on plus side; slightly delayed on 3975.001-, S9/+10, both into UTwente.

Also confirmed Saturday September 27 at 1930 on WRN N America stream; and via WRN on WRMI 9395, S6/S8 into N9AZZ remote.

Also confirmed Saturday September 27 at 1945 about 15 minutes into so started on-time circa 1930 on WA0RCR, 1860 AM, MO, S5 with lots of noise and fading into N9AZZ remote in IL, but much better than the two right next to St Louis.

Also confirmed Saturday September 27 at 2021 the 2000 on WRN Europe stream. Next:

2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1030 UT Sunday WRN via WRMI 7730 7780 9395 9955;
1830 UT Sunday SW Radio, Germany 3975 & 6160 [ex-2130];
1900 UT Sunday IRRS SW via AM Italia 1323;
2100 UT Sunday WRMI 15770 to NE;
2300 UT Sunday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2314 monitoring: confirmed Saturday September 27 at 2100 on WRMI 9395, S8/S9 into N9AZZ IL remote.

NOT confirmed Saturday September 27 at 2230 on WRMI 15770, where had been for a few weeks. Replaced without notice by music, into UTwente, while 7730 still both showing on System K WRMI skedgrid, is axually airing the SMTV cult.

Confirmed UT Sunday September 28 from 0305, the 0315v early on WA0RCR,

1860 AM, Wentzville MO, S9+10 and `local` quality into N9AZZ SDR, unlike first airing in afternoon - except, completely overridden several times a minute by an extremely wideband multitonal - H2Ofall shows covers entire HF band - must be something local to N9AZZ in Cartersville.

Also confirmed Sunday September 28 at 1852 the 1831 on SW Gold Radio, Germany, 6160.001- S9+10/15 with RTTYditty plus side, 3975.002- S9/+15 both into UTwente.

Also confirmed Sunday September 28 at 1900 on IRRS SW via AM Italia, not off the air, S9+5 into UTwente on 1322.995. Next:

2100 UT Sunday WRMI 15770 to NE;
2300 UT Sunday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2314 monitoring: confirmed Sunday September 28 at 2000 on WRN Europe stream.

Also confirmed Sunday September 28 at 2100 on WRMI 15770, S9/+5 into UTwente; preceded by unID language listed as Alameda Bible Fellowship in Russian.

Also confirmed Sunday September 28 at 2300 on WRMI 9395, S9+20/25 into Knoxville SDR.

Also confirmed Sunday September 28 at 2330 on WRMI 9455, S9+10/30 into Knoxville SDR.

Also confirmed UT Monday September 29 at 0030 on WRMI 7780, S9+20/25 into S Texas SDR.

Also confirmed UT Monday September 29 at 0300 on Area 51 webcast, just as WBCQ 5130- switches to sign-off. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2314 monitoring: confirmed Monday September 29 at 1931 on SW Gold Radio, Germany, 3975.002-, S8/9+5 into UTwente; at first not heard on 6160 but a non-locking weak signal, and RTTYditty from plus side; then, I can JBA hear the WOR theme on 6160, maybe undermodulated along with very poor propagation. Followed after 2000 by the daily lullabyes. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2314 monitoring: confirmed UT Tuesday September 30 at 0330 on WRMI 7780, S9+15/30 into S Texas SDR.

Also confirmed Tuesday September 30 at 1300 on WRMI 9955, S5/S7 JBA direct.

Also confirmed Tuesday September 30 at 1400 on WRMI 9955, S5/S6 JBA direct.

Also confirmed Tuesday September 30 at 2000 on IRRS SW via AM Italia, 1322.996-, S9 into UTwente across Europe. Next:

2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2314 monitoring: confirmed Tuesday September 30 from 2331.4 on SW Gold Radio, Germany, 3975.003, VP S7/S9 into UTwente.

Also confirmed UT Wednesday October 1 at 0030 on WRMI 9395, S9+5/12 into Knoxville SDR.

Also confirmed Wednesday October 1 at 1930 on SW Gold Radio, Germany 3975.000, S8/S9 into UTwente; and 6159.999-, JBA S8/S9 with RTTYditty on plus side.

Also confirmed Wednesday October 1 at 2100 on WBCQ 7490-, S7/S9 into Maryland SDR; 2123 into NH SDR, S7/9+5.

Also confirmed Wednesday October 1 at 2330 on WRMI 9395, S9+30/40 into Georgia SDR. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1630 UT Thursday SW Radio, Germany 6160.

Thanks to Gerald T Pollard, Raleigh NC, for a generous seasonal check marking autumnal equinox to Glenn Hauser, P O Box 1684, Enid OK 73702.

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. WTWW is reactivated on 5085, a good omen for WOR UT Sat 0300. Wolfgang Bueschel reports ``September 25 Thursday morning log in North AM in Edmonton-AB-CAN and Rockland MA state east coast remoted SDRs, at 0100 to 0200 UT: 5085even USA WTWW Lebanon TN state, English sermon, S=9+10dB at 0121 UT`` You mean, Rockport, Maine? However, no signal 24 hours later UT Friday Sept 26 (Glenn Hauser, OK, WOR)

** U S A. WTWW: George McClintock advises me early UT Sept 27: new relay costing $26K has come in but not yet confident to run 5085, so no WOR for another week. By October should also be re-active daytimes on 9475 which has been inaccessible for a long time (Glenn Hauser, OK, WOR)

** U S A. 5920, Sept 27 at 0623+, horrible galaxy of spurs: I`m finding numerous extremely distorted spurblobs above and below this WTWW frequency with TOMBS matching modulation. These are the approx. ranges, with the middle frequency being the approx. peak, but no specific carriers. Of course, they get progressively weaker the further out. They are approx. multiples of ~86 kHz displacement. Note that the peaks are closer to the upper edge than the lower edge, but maybe because of tuning in USB. Not in the order monitored. First one found, 5834, read S9+25:

5657-5661-5663
5741-5747-5750
5831-5834-5835
6001-6006-6008
6087-6093-6095
6175-6179-6182
6260-6265-6268
6347-6350-6352
JBA: 6436

Paul Walker, Alaska, also reported to NASWA: ``At 0500 UTC Sept 27, WTWW 5920 has very distorted spurs on 6005 and 6092`` (Glenn Hauser, OK, WOR)

** U S A. 9930, Sept 27 at 2355, WTWW TOMBS without all the spurs or splash, just those discrete parasites on 9917.2 and 9942.8. How about its successor 5920 which was horrible last night? Sept 28 at 0212 it`s clean, not even the plus/minus 12.8 kHz parasites. Of course, I had notified George about the galaxy of 86x kHz spurs. 5085 is still off (Glenn Hauser, OK, WOR)

** U S A. 5907.10, Sept 28 at 0631, spur of WTWW 5920 which is S9+30; closer to 12.9 than usual 12.8 kHz offset. Can`t dig the mirror match from 5932.9, too much 5935 WWCR (Glenn Hauser, OK, WOR)

** U S A. WTWW: George explains the heavy spurs out of 5920 as caused by an inductor that needed cleaning, which he did, so it was OK the next night. Also, an out-of-service transmitter has been sold to someone who extracted it with a huge forklift and hauled it off, unknown exactly where but not a current SW station; maybe just wanted it for parts (Glenn Hauser, OK, WOR)

** U S A. 9955, Sept 25 at 1457, WRMI reactivated here, weak S7/S9 English direct (Glenn Hauser, OK, WORLD OF RADIO 2314)

** U S A. ``WRMI Radio Miami International 5d · We Pluribus debuts on WRMI --- We hope it’s something different on Saturday evenings and something you enjoy. The Show is called “We Pluribus” and your host is Mike Cheselka. He’ll be on from 9 PM to 10 PM Eastern, 9395 KHz.

(That's 0100-0200 UTC Sunday.) He says he created the show in hopes of appealing to both sides, bringing everyone together. Tune in to see what you think`` (WRMI FB Sept 20)

I find that it originates at WHBC 1480 Canton OH:
https://www.whbc.com/shows/wordstock-with-mike-cheselka/

And make a point of listening UT Sunday Sept 28 at 0100-0159 on WRMI 9395, S9+10/20 into Georgia SDR, fading down somewhat. This week he`s in Las Vegas NV. Opens with about one minute of `news` with Julie - only two items: Comey prosecuted, Tylenol. Then Mike talks ``this morning`` - he`s extremely critical of tRump, justifiably, sounds fine to me, but I don`t see how he is appealing to the side of the Magats! He thinx we have five years to get the country straightened out. He`s certainly a breath of fresh air vs all the far-right/gospel huxters infesting US SW. Gives a phone number altho obviously not live; wants to facilitate listener call-ins later (Glenn Hauser, OK, WOR)

** U S A. 5950, UT Mon Sept 29 at 0200, S9+15/40 into Georgia SDR, `Encore` via WRMI, a show I never miss, tnx to Brice Avery, Scotland producing an hour of classical music fortnightly. A great mix of the familiar and the unfamiliar, with just enough introductory info, but mostly music. This time, including `Fantasia on a Theme by Thomas Tallis`, by Ralph Vaughn-Williams, a beautiful piece that gives me goosebumps, until 0234. There`s a mailing list previewing each edition, such as on Sept 18:

``[WOR] Encore - Classical Music on Shortwave - Times, Frequencies, Playlists, How to support Encore

Dear Listener,
Regular Broadcast times of Encore By WRMI and Channel 292 are:
02:00 - 03:00 UTC Friday 5850 kHz WRMI to US
20:00 - 21:00 UTC Friday 15770 kHz WRMI to Europe
10:00 - 11:00 UTC Saturday 9670 kHz Channel 292 to Europe
01:00 - 02:00 UTC Sunday 5850 kHz WRMI to US and Canada
19:00 - 20:00 UTC Sunday 3955 kHz Channel 292 to Europe
02:00 - 03:00 UTC Monday 5950 kHz WRMI to the US and Canada
13:00 - 14:00 UTC Tuesday 15770 kHz WRMI to Europe, east coast of US and Iceland. (Sometimes RTTY on the lower sideband. Suggest notch out or use USB.)

Some Things to see on The Encore Website:
The Encore website is www.tumbril.co.uk where you will find:
Important information about funding of Encore - Radio Tumbril.
Up to date transmission times and frequencies.
The playlists for the most recent programmes.
An email link.
Informal reception reports as well as those requesting eQSL cards are welcome.

ENCORE IS A ONE-MAN OPERATION - PLEASE MAKE A PAYPAL DONATION AND HELP KEEP ENCORE ON THE AIR - Go to - www.tumbril.co.uk

WRMI and Channel 292 are very generous with their air-time but Encore still costs around 100 Dollars/Euros a month to broadcast.
If you can - please send a small contribution to help Encore keep going.

THE DONATION BUTTON is on the homepage of the website - www.tumbril.co.uk - which folks can use if they would like to support Encore.

(Please don't be put off by the POWR security wall when using the PAYPAL button - it is a harmless requirement of WIX the website

hosting service.)

THIS FORTNIGHT'S PROGRAMME - First broadcast on FRIDAY 19th September by WRMI at 0200 UTC on 5850, and 2000 UTC on 15770 and then Channel 292 on SATURDAY 20th September at 10:00 UTC on 9670 kHz:
Starts with two very different versions of O Virtus Sapientiae by Hildegard von Bingen, and two pieces by Welsh composer Paul Mealor. After that the Fantasia on a Theme by Thomas Tallis by Vaughn Williams.
The programme finishes with three piano etudes from Hélène de Montgeroult, and the first movement of Viola Concerto No. 3 by Friedrich Benda.

Brice Avery - Encore - Radio Tumbril - www.tumbril.co.uk
GMØTLY`` (Glenn Hauser, OK, WOR)

** U S A. 17790, WRMI & 15770: See POLAND [non]

** U S A. 17790 S9+30 and unusually // 15770 S9+20, Tue Sept 30 at 2157, WRMI closing ``God Is Just A Prayer Away`` gospel huxter from Lynchburg OH. By next check 2208, 17790 is off, no PRES Poland via WRN like yesterday, and 15770 in usual Taiwan Spanish. GIJAPA is on System F redsked supposedly on 15770 only, Tue only (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Sept 26 at 2352, into NH SDR: NO signals on 3265, 5130; 6160 JBA presumed China; 7490 -71 Hz = 7489.929 with FKB S9+20; 9330.0 WLCR PP. Calibration corrected compared to WWV. Did not hear any IS & ID leadups but by 0000 Sept 27, 7490 has Al ``so many buttons - analog guy in a digital world``, before WTO theme. Now 6160 and 5130 are on with AAAWWW as well as 7490 & 9330, apparently new show talking about Charlie Kirk, and ``pot roast``. Angela on phone. Insults communists by equalizing them with Democrats, or vice versa; enough of that. 0024 recheck, churches are filling up due to Kirk. 0050 ``quadricasting``. Runs two minutes over into Hal Turner time by 0102 (Glenn Hauser, OK, WOR)

** U S A. 9330, Sept 29 at 0602, no signal from WLCR/WBCQ; if paused for rotation before 0600 should be back on by now. Is on at next check 1456 but JBA in degraded propagation (Glenn Hauser, OK, WOR)

** U S A. 5935, Sept 29 at 0546 for at least two minutes, dead air from WWCR at S9+50/60; that`s longer than it takes DGS for a cigar puff (Glenn Hauser, OK, WOR)

** U S A. 15555 USB, Sept 26 at 2202, WJHR, S9 direct playing `Rock of Ages` in s/off to 2203*. Not heard for several days in random daytime chex, so has been off air, or is pipsqueak totally dependent on random sporadic E to propagate? (Glenn Hauser, OK, WOR)

** U S A. 17525, Sept 29 at 2207, no signal from WMLK; propagation strange but should be at least a trace of it if on to 2230. REE and WRMI are well audible on 16m (Glenn Hauser, OK, WOR)

** U S A. 15150, Sept 30 at 1450, no signal from WMLK, just as there was no 17525 yesterday afternoon. And again Sept 30 at 2158, 17525 off. Something`s botched at Bethel (Glenn Hauser, OK, WOR)

** U S A. 15150, Oct 1 at 1513, WMLK still missing; and after 2200 still missing from 17525 (Glenn Hauser, OK, WOR)

** U S A. 770, Sept 25 circa 0605 UT, can`t hear KKOB Albuquerque NM, which has been easy since they had to go to 12.5 kW ND STA. Think I was still hearing it last night. Something has changed. Yes:

"KKOB will commence operation under a low power (1 kW) STA imminently

while awaiting construction of new permanent facilities for 50 kW Day 5 kW Night operation at the antenna site of KTBL.

The remaining tower and other facilities at the licensed KKOB site will be dismantled. The Santa Fe booster, call letters also KKOB, is unaffected by this change."

Re: Radio License Holding CBC, LLC
KKOB(AM), Albuquerque, NM
Fac. ID No.: 11251
Special Temporary Authority

Dear Applicant:

This is in reference to the request filed September 3, 2025, on behalf of Radio License Holding CBC, LLC ("RLH"). RLH requests special temporary authority ("STA") to operate station KKOB(AM) from an alternate site location with a temporary antenna.

In support of the request, RLH states that because of the imminent dismantling of the remaining antenna tower at the licensed site of KKOB(AM), the station is requesting an STA to relocate to a nearby FM site.

Specifically, KKOB(AM) proposes to operate from a site located 21.4 kilometers (13.2 miles) from the licensed site with a daytime and nighttime power of 1 kilowatt. The proposed site has an existing 196 foot tower which supports the FM transmitting antenna of KABQ-FM and the auxiliary antennas of KABQ-FM, KYLZ-FM, and KBQI-FM. The antenna tower will be fed with a single flared skirt wire. Based on a NEC4 calculation the inverse distance field will be approximately 197.75 mV/m/km for the 1 kilowatt operation.

STA requests which involve a change in transmitter site must include four critical elements:
(1) Loss of the licensed site must be beyond the licensee's control;
(2) STA facilities must continue to provide service to the licensed community;
(3) STA facilities must maintain, as closely as practicable, the licensed service area without extending it;
(4) STA facilities cannot involve the construction of towers intended for permanent use by the station requesting the STA.

Accordingly, the request for STA IS GRANTED AND 0000269423 IS SUPERSEDED.

Station KKOB(AM) may operate with the following facilities:

Geographic coordinates: 35° 04′ 04.5″ N, 106° 46′ 46.8″ W (NAD 1983)
Frequency: 770 kHz
Hours of operation: Daytime and Nighttime
Operating power: 1 kilowatt (Daytime), 1 kilowatt (Nighttime)
Antenna type: 196 foot existing tower excited with a single flared skirt wire
Antenna Efficiency: 197.75 mV/m/kW@1 km

It will be necessary to further reduce power or cease operation if complaints of interference are received. KKOB(AM) must notify the Commission when licensed operation is restored. KKOB(AM) must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on March 4, 2026.`` (Glenn Hauser, OK, WORLD OF RADIO 2314)

** U S A. 1370, Sept 28 at 0701 UT, fleeting ID as 94.7 FM, KWRT.com. First, hunting for a 1370/94.7 match, NRC AM Log and WTFDA FM DB both come up with only: KXTL McQueen Montana with K234AT. But the `KWRT` ID should override that, so what about it? 1370 U1 1000/84 watts Boonville MO with K254DE on 98.7 per NRC AM Log. Then searching for website, KWRT.com is something else; really https://www.1370kwrt.com/ where they also claim to be on 98.7 - contradixion after contradixion. Boonville is just west of Columbia in central MO (Glenn Hauser, OK, WOR)

** U S A. 1420, Sept 25 at 0610 UT, WOC ID, but an understation says ``98.7`` - Only corrrelation in the NRC AM Log among the 60 stations on 1420 is KUJ Walla2 Washington, very unlikely. But WTFDA FM DB hits a very likely one: ``K254CI relay of:KWBF-1420 98.7 LUBBOCK TX 0.099 kW 33-30-08 101-52-22 CONTEMPORARY CHRISTIAN WALK BY FAITH RADIO 143895``
While NRC AM Log shows its //FM on 98.3 but same call K254CI. Channel 254 is in fact 98.7, NOT 98.3! KWBF 1420 itself is U1 500/140 watts (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Sept 27 at 0648, RV not off the air, S5 of music. Ron Howard reported earlier: ``Radio Vanuatu not heard 0545+ UT, Sept 27 -- Hi Glenn - Was just checking for Radio Vanuatu, via New Zealand remotes and found no signal at all on
9960, 7260, 5040, 3945 or 2485 kHz. Probably another power outage that tripped off their transmitter? As usual, I have alerted Pryce Aptenbel, at the station. Ron (Monterey, Calif.)``

And from Gedas in Indiana: ``I just checked at 06:45 UTC and they have a very strong signal on 9960 directly into Indiana. Your note to them seems to have worked. However I am also hearing a very strong broadband QRM signal coming and going that really messes up reception. 73 Gedas W8BYA`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA MW carrier search, on E/W loop, Sept 29 at 0530-0544 UT: tuning USB, 1 kHz below 9/kHz channels: 531, 585, 612, 657, 666, 684, 774-2, 864?, 882, 909, 1107, 1413? And same in LSB 1 kHz above channels: 531, 657, 684, 711, 774, 837, 855, 981, 1098, 1107, 1206?, 1251, 1305, 1332? --- -2 means at least two carriers beating; stronger ones on 657, 684 going upward (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.53, Sept 29 at 0551 UT, carrier het against 810.0 WHB, as heard many times before around this spot, but not lately (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 880, Sept 29 at 0548, Mexmx atop KRVN, whatever, plug app for sounds like ``La Pino Max``, or Mas, ``en todas partes``. Nothing similar among US stations in NRC AM Log. Usual heard is WIJR Highland IL, La Tremenda. Mexico? IRCA Log shows only one, in Chihua2, and it`s silent (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 890, Sept 29 at 0547 UT, under WLS, unusually another talk station in English, can`t tell if religious. Possibly KTLR OKC daytimer. What is status of KDXU St George UT? Was U2 10/10 kW but

with CP for U1 25000/108 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 980, Sept 29 at 0546 UT, Mexmxmix, rather than usual KMBZ Kansas City dominant. If really SS:REL, most likely KQUE Pasadena TX. Very few USSS and non-religious: most likely KFWB Los Angeles CA; but Mexico? IRCA Log has three on 980, but only one possibly active, XELC La Piedad, Mich, 5000/200 Radio Pía, unlikely (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, Sept 29 at 0555, JBA carrier still a mystery; but no longer hearing the one on 7235 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5286 USB, Oct 1 at 1355, some traffic net with abbr`d callsigns like 8BS, most others JBA in S8 HNL. What`s this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15460, Sept 30 at 1451, drumming and other music, S7/S9 the SSOB. Nothing listed in Aoki, EiBi or latest HFCC Sept 28, just Reach Beyond Australia at 1200-1400 only, in complex sked of S Asian languages in quarter-hour blox depending on day of week. This signal does reek of RBA anyway with TE advantage, high K-index of 5 and 2/3 at 1500.

Still going at 1630 as David Ross asks me about it - at 1635 playing `Somewhere/Someday` from W Side Story, instrumental, then jazz. I check remotes in India and Thailand, which are *not* getting it.

At 1648, UTwente has S7 in noise on 15460.013+.

Then I try TDOA, but only get two running, Brazil and South Africa, who declare at 1654, ``most likely`` FWIW not much, 39.50/75.00, i.e. somewhere in central Asia, like Kashgar? Off at 1700*, no announcements ever heard.

It came back on after 1800, again nothing but music, mostly jazz?, until 1901*. Others hearing it, suggest from inside USA, like a Greenville test (Glenn Hauser, OK, WOR) Nothing on 15460 October 1

UNIDENTIFIED. 15870, Sept 27 at 2341, S9 open carrier and no Doppler flutter, unlike so many obviously FE/China carriers on this and higher bands. Aoki & EiBi show 15870 only with CNR1/Firedrake jamming and Sound of Hope, up to 24 hours, but suspect something else (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 21645, Thu Sept 25 at 1450, weak unID language, Doppler flutter, almost the OSOB until I came to stronger 21800 with the SOH/CNR1 jamming radio war. However, both EiBi and Aoki show such a conflict on 21645 is off after 1300, while BBC Hausa via ASCENSION is Saturdays only at 1300-1700 per Aoki, while EiBi says it`s irregular.

However, Ron Trotto says: ``Hearing a station in Mandarin at 1309 UTC on 21645 signal good. Only listing I have is for BBC in Hausa. ron trotto-wdx4kwi, virden Illinois, Tecsun pl-880, grundig sat 750, sangean ats 909x, eton elite executive I'm always here you can't get rid of me I'm a bug`` (Glenn Hauser, OK, WOR)
